Dear Fellow American Patriot,

Fox News calls it “a must-see film.”

Time says it’s the key to understanding the “core vision” of the Trump White House.

The *Washington Post* describes it as a “tale of the many ways in which 99 percent of Americans were crushed by the country’s all powerful elites.”

What movie is this that everyone is talking about?

Generation Zero written and directed by President Trump’s former Chief Strategist, Steve Bannon.

Produced before he ran for President, this movie perfectly explains the factors that led to the rise of Donald Trump and why it’s so critical that we support his agenda now.

If you have any family members or friends who simply cannot understand why you stand with and support President Trump, this is the movie to share with them.

And I’ll tell you how you can receive a copy of this incredible movie in just a minute.

But first let me tell you why this movie is so important.

Not since the American Revolution, the Civil War, and World War II have Americans faced such a pivotal crossroads as we do now.

That’s no exaggeration, my friend. You see, whether the Trump Administration succeeds or fails will decide the future of America and what kind of

country we're going to be.

The Left completely understands this, which is why they're attacking President Trump with everything they can.

Liberal Congressmen are calling for Trump's impeachment. Radicals in liberal states are talking about secession. And some leftists have darkly called for a military coup.

To you and me this kind of rhetoric might seem completely unhinged - until you consider the fact that the Left stands to lose everything and they're willing to do **anything** to make sure Donald Trump and the conservative movement is defeated for good.

Which is why it's so important that we don't lose the battle for the soul of America.

My friend, when you opened the envelope that contained this letter a moment ago, I'll bet you had no idea that you were about to be recruited into an enormous, life-changing, culture-defining battle that will define America for generations to come.

I apologize for catching you off guard.

But now, the battle lines are clear:

It's a fight between: Limited government, with rights granted by God vs. the Left's expanded government and unimaginable debt

It's a fight between: Prosperity in America vs. Socialism in America

It's a fight between: Living within our means vs. Limitless spending

And it's a fight between: Our Freedom vs. government control

Today it's hard to find good folks who understand how important it is that we support the President in this crucial battle, and even harder to find dedicated people who care enough to do something about it.

I sure you hope you are one of those people.

Because right now President Trump faces a fierce opposition that is willing to do anything to defeat him:

**** Liberals in Congress**, working to turn America into a socialist state;

**** Liberals in the Media**, actively spreading every lie in the book against

President Trump;

**** Liberals in Big Labor**, who, through their greed, have actually killed American manufacturing and caused our jobs to be shipped overseas.

So, what does all of this mean to you? It all boils down to one important question I need you to answer today:

Do you want to keep America great?

Unless you and I help President Trump succeed – ours could be the first generation in America’s history that passes on our country in a worse-off state to our children and grandchildren, than it was passed down to us.

You know that those who came before us – our parents, grandparents and even great-grandparents – sacrificed so much (sometimes even their very lives) so that we would have a better world.

You and I have a duty to them... a responsibility to the next generation...

...a solemn, sacred obligation to all future generations... to sacrifice now, to do our part to get America back on the right track, so that we leave our nation a better place with a brighter future.

Today, if you will stand with me and join this all-important fight to save the soul of our country for our children and grandchildren, I will send you a copy of our film: GENERATION ZERO featuring Lou Dobbs.

“Generation Zero” is the “most important movie of the year.”

So important that Sean Hannity even devoted an entire 1-hour-long show to promote “Generation Zero,” the film he calls “GROUND-BREAKING!”

You need to see this film! Listen as Lou Dobbs and many others clearly explain how we got to this crisis point, and what we need to do right now to save our country.

So, if you will be one of the courageous friends who stands with me to fight for America’s future with a membership gift of \$35 or more to *Citizens United for the Trump Agenda*, I will rush you your own copy of “Generation Zero” featuring Lou Dobbs on DVD, with my compliments.

Bottom line: To fight for the return to conservative values that are going to save this country you and I love so much, I need you become a member of *Citizens*

United for the Trump Agenda today.

I hope that you will accept these words as an outpouring of one who cares deeply about preserving America's greatness for his own children and grandchildren:

I implore you - as you are one of the few active citizens in the nation with the record of generosity and commitment to conservative values to make a difference - to help save our country.

I pray you will see my action springs from my deep patriotism, my devotion to *Citizens United*, and my concern for our country...

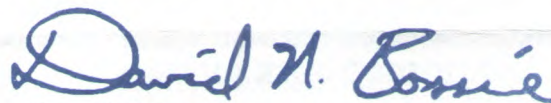

... and that I write as a friend to you as someone who could literally help guide the course of America's future with your membership gift of \$35, \$50, \$100, \$250, \$500 or even more today.

By joining as our newest member today, you will not only help me get the vital message contained in "Generation Zero" out to thousands more Americans, you will help President Trump carry on the fight for the survival of the conservative values that will ultimately restore our great nation.

So please, if you agree with what I've shared today, I pray you'll be as generous as you possibly can, and remember, with your gift of \$35 or more, I will rush you your own copy of "Generation Zero," the film Lou Dobbs said should be "required viewing" for every American.

Thank you, God bless you and may God bless, protect and defend the United States of America!

Most sincerely yours,

David Bossie
