Dear Silent Republican Senators,

Where is your defense of our great **President Donald Trump**?

For three years now, Democrats, the media, and Obama holdovers in the DEEP STATE have attempted to overthrow our duly elected President and cancel the results of the 2016 Election. They are attempting nothing short of a COUP against our President.

Do you really think the Left will EVER give up power if they win control of our government in 2020?

The first thing they will do is create millions of brand new voters for socialism by granting amnesty to all illegal aliens now living in America, plus destroy all border security measures so that all of Latin America can just walk into our country and become voters.

At that point, America is over. But most of you just sit there in silence as our President is attacked 24-7 by the dishonest media and the Democrats.

Senator Mitt Romney, you are special disgrace. You write op-eds in *The Washington Post* attacking our President. You attack him regularly in media interviews.

Let's hope a strong conservative runs against you in the primary when you are up for reelection.

President Trump is doing so many great things for America. He is building the wall and securing our southern border – with no help from Congress. He has cut illegal border crossings by 60% since May. He has cut taxes, slashed anti-business regulations, and gotten America's economy moving again.

We now have the lowest unemployment rate since 1969 – and the lowest unemployment rate ever for black, Hispanic and Asian Americans. Wages are rising at nearly 4% per year. America is now a net exporter of energy – and no longer depends on the Middle East for our oil.

But very few of you are doing much at all to help our President. You should be on the cable news shows every day all day defending **President Trump**. And not with a weak, half-hearted defense – a strong unwavering daily defense.

President Trump is the most investigated President in history. They have found nothing, zero . . . because he has done nothing wrong.

Democrats have been talking about impeaching this President since the day after he won the election in 2016.

They have promised to put **President Trump** and his family in prison. They attack his wife Melania. The Left and the media even attack his 13-year-old son Barron. That's how sick they are.

Do you not realize **President Trump** is America's last hope for survival? Do you not realize that the 2020 Elections will decide whether America can be saved . . . or is destroyed forever?

The Left is playing for keeps. They want to replace capitalism with socialism. They want OPEN BORDERS so they can create tens of millions of new voters for socialism – and so they can keep power permanently.

America's very survival is at stake in 2020. The Left is out to destroy America. **Start fighting!**

Sincerely,

Signed: **X** _____ Date: _____
