Regarding My Husband
U.S. Senator Rand Paul

Dear Fellow Conservative,

Some days it's really hard.

Sometimes I just want to quit, to have things go back to the way they were when Rand was a hardworking eye surgeon in our small town.

It's not because of the long hours. Or because of the travel.

It's not because of the constant media smears and lack of privacy, or even the weekends filled with rubber chicken dinners!

It's because I know just how much they hate my husband.

And they hate my husband because he's right.

Rand was right on COVID-19. As the only elected official who had the courage to question Dr. Fauci on the source of the virus and the NIA's funding of dangerous gain of function research, he was vilified by the media and Big Tech. He continues to fight against the petty tyrants in our government and their unconstitutional lockdowns that have destroyed small businesses as well as the anti-science mandates such as the forced masking of children.

He's right on endless wars and the dangers they pose to our troops and our national security. He's right on out-

of-control spending, unconstitutional "moratoriums" that steal the property of middle class landlords, and an out-of-control government surveillance police state.

He's right about the scourge of abortion, about the threat to our second amendment rights, and like his father before him, about our monetary system and the alarming inflation that is already stealing our children's futures...

...and he's right about the fragility of our constitutional republic. And when I say they hate him, I'm not being overly dramatic.

Rand and I were surrounded by a violent mob in Washington DC, that spit on us, threw things at us, and threatened to kill us. We were literally unable to move for over nine terrifying minutes until DC Police reinforcements arrived to create a moving barricade against the vicious mob.

The mob was so fueled by media lies and hatred that they were literally knocking the police down to get at us.

The FBI and the DA could identify many in the mob from the live stream videos -- including one man who followed us into our hotel. Was a single person arrested?
NOT ONE.

Rand has received credible death threats, been shot at, and we even received fake powder meant to look like anthrax, leaving me terrified that I had been exposed to lethal poison.

Rand was brutally assaulted by a Trump-hating lunatic in a blindside attack in our own yard. An assault so violent it resulted in six broken ribs and lung damage that required surgery and two separate hospital stays. Watching my husband struggle to breathe without pain

was truly excruciating for me, and it leaves me in constant anxiety over his health.

Reporters and celebrities laugh at his injuries, celebrate his attacker and call for more violence against Rand and our family. All for daring to question the status quo!

But I won't quit.

Because I know my husband, Rand Paul, will never back down.

Not just because he's right. Because he cares.

Most people know how hard he fights for our conservative principles in Washington.

But very few people know that he's a doctor who volunteers his free time doing pro bono cataract eye surgeries for impoverished people in places like Guatemala and Haiti, as well as right here in Kentucky.

Many Americans know about Rand's passionate floor speeches on common sense issues like endless deficit spending, but few realize that he has done charity medical work throughout Kentucky and the nation since he founded the Southern Kentucky Lions Eye Clinic to provide surgery and exams to the underprivileged soon after we moved to Bowling Green in 1993.

I'm proud to be married to Rand Paul, and to be a part of the Paul family.

Rand's commitment to liberty and the constitution is unmatched.

That is why I will stand next to him, no matter what gets thrown at us.

And that's why I sincerely hope, you will join with me and sign your "I Stand with Rand" Pledge Form today so I can present it, along with tens of thousands of others, to show Rand that we have his back.

And when you do, I sure hope you will consider a contribution to Rand's reelection campaign.

Though it seems like a long way off, November is right around the corner and we're taking fundraising for this year's election as seriously as we take the threats against us.

Whatever you can afford, whether it's the legal maximum of \$2,900, or \$2,000, \$1,000 or \$100, whether you can send \$500 or \$50, \$250 or \$25, anything will help in this particularly important race.

And make no mistake, this race is vital to our future.

2022 is a pivotal year!

Because the leftist Democrats currently control the House, they have the Senate, and they've got the White House. They are seeking to federalize our elections and make ballot harvesting, voting for non-citizens, and voting without an ID the law of the land.

They also have career bureaucrats like Dr. Anthony Fauci pushing their anti-Freedom agenda every chance they get.

While they spend trillions upon trillions of your hard-earned tax dollars to fund their socialist, big-government agenda, they're inviting in over a million illegal immigrants and giving them taxpayer-funded handouts.

They're using our tax dollars to kill unborn children, and they're going after the guns we use to protect ourselves from criminals.

(Next Page, Please) →

They're on the path to destroy America faster than I could've ever imagined.

And they aren't happy with anyone who stands in their way.

In fact, they despise Rand so much they've already recruited not one but two well-known Democrats to run against him!

Regardless of which extremist Democrat wins their primary, you can bet that every liberal group in the country will be flooding Kentucky with tens of millions of special interest dollars in an effort to beat my husband.

Big Labor union bosses, Planned Parenthood, Antifa terrorists, gun grabbers, radical teacher union officials, Big Tech Titans, and of course the communist China-loving, Socialist Billionaires Boys Club - they will all be flooding Kentucky with their money to defeat Rand.

Fortunately, I don't believe for a minute the people of Kentucky want a person to represent them who will defund the police, support the job-killing green new deal, raise taxes on the middle class, and strip them of their Second Amendment rights.

The extremist Democrats are 100% committed to defeating Rand and we need to fight back starting today. And we are relying on the generous support of thousands of patriotic Americans like you.

You see, it's the overwhelming support we've received from hardworking Americans and liberty lovers from around the country that keeps Rand in the fight.

I know you care about our nation's future. And I
(Over, Please) →

know you want to help fight to save our republic from the radical socialists and their plans to bankrupt our great nation.

So please, sign and return your "I Stand with Rand" Pledge Form today.

And when you do, please consider returning it along with your most generous contribution to Rand's reelection campaign of \$2,900 (the maximum allowed by Federal law), \$2,000, \$1,000, \$500, \$250, \$100, \$50, or whatever you can afford.

Your support today will make all the difference.

Thanks for all you do to fight for liberty.

Sincerely,

Kelley Paul

PS. They really hate my husband! And they hate him because he's right. He's right on COVID-19. He's right on endless wars. He's right on out-of-control spending, and an out-of-control government police state.

So, I hope you will sign your "I Stand with Rand" Pledge Form today and return it to me so I can present it, along with tens of thousands of others, to show Rand that we have his back.

And when you do, I sure hope you will consider a contribution to Rand's reelection campaign. Though it seems like a long way off, November's election is right around the corner.

Whatever you can afford, whether it's \$2,900 or \$2,000, \$1,000 or \$100, whether you can send \$500 or \$50, anything will help in this critically important race for the future of our nation.
