

NATIONAL ASSOCIATION FOR GUN RIGHTS

Standing Up for **Freedom.**
Defending the **Second Amendment.**

Monday Morning

Dear Fellow Patriot:

This is a dangerous time for the Second Amendment.

In the wake of the attack in Uvalde, Texas, President Joe Biden and anti-gun lobbyists are working overtime, arm-twisting Republican U.S. Senators into supporting gun control.

Sadly, their strategy is working.

According to BOTH *CNN* and *Fox News*, Senate Republican Mitch McConnell (R-KY) has directed Texas U.S. Senator John Cornyn (R-TX) to craft a 'bipartisan' gun control deal with Democrats.

Billionaire-backed groups are threatening lawmakers with unprecedented attacks, unless they bow down to Biden and Senate Democrat Leader Chuck Schumer (D-NY) and sell-out your Second Amendment rights.

And Pundits from *The Hill* are spewing out fake "poll" numbers all over Washington, D.C., claiming that YOU support gun control.

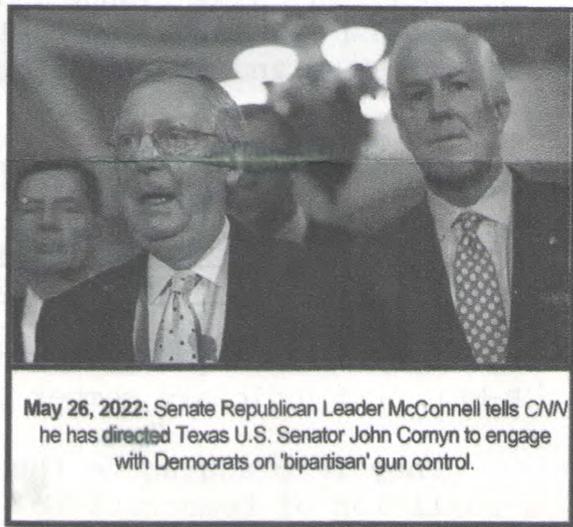

The pressure is mounting and Republican support for the Second Amendment in the U.S. Senate is evaporating FAST.

All sources on Capitol Hill say the Senate will look at BOTH "Red Flag" Gun Confiscation and Universal Background Checks (aka NATIONAL GUN REGISTRATION), and maybe even a renewed "Assault Weapons" ban!

I don't say this lightly -- but this is an EMERGENCY!

Your IMMEDIATE action is needed to stop Republicans from signing off on the largest gun control expansion in 30 years.

Please fill out the enclosed postcards, sign one of each, ask

your family and neighbors to sign the extras, and drop them in the mail right away.

Your Senators need to hear from Second Amendment supporters like YOU, right now.

Lawmakers are looking to RAM through as much gun control as they can before they break for summer recess, so we're out of time. A vote to infringe on our guns right is imminent.

Now is the time to fight back, before it's too late.

As we've seen so many times before, if we give an inch of ground to anti-gun politicians, they'll take a mile.

Just remember how quickly many pro-gun "allies" in the Senate caved and supported the infamous Toomey-Manchin gun control proposal in 2013 -- the same legislation they are now resurrecting in Congress.

Democrats like Dianne Feinstein are demanding Congress go even further and reinstate the failed Feinstein "Assault Weapons" ban, and bans on standard-capacity magazines.

Others like Sen. Cory Booker (D-NJ) are pushing mandatory licenses to own a gun and 20+ day waiting periods!

But instead of saying "hell no," many Republicans are stampeding like a herd of RINOs helping to advance gun control.

Take for example, Senators Bill Cassidy (R-LA), Susan Collins (R-ME), and judiciary member Lindsey Graham (R-SC).

They're bragging to the nutcases on *MSNBC* about working with a coalition of Democrats to pass due process-shredding "Red Flag" Gun Confiscation.

So-called "Red Flag" laws let the same snowflakes who flag your Facebook posts as "offensive" place anonymous calls to police, allowing SWAT teams to be sent to your home to seize your legally owned firearms.

Not a single one of the 17 states which have "Red Flag" laws protect our right to due process and, by purposeful design, it's impossible.

The other proposal they're working on -- the so-called "background check" bill -- calls for a nationwide BAN on most, if

not all, private firearm sales.

That means every firearm transaction in America would be outlawed, if not first approved by the government and registered through the same illegal NICS gun registry the ATF and FBI were caught keeping earlier this year.

Both the Uvalde and Buffalo attackers passed background checks and showed very few warning signs, meaning these proposals would have done NOTHING to stop either tragedy!

These gun controls will only infringe on YOUR right to defend yourself and protect your family.

And, if Mitch McConnell surrenders to Biden, Schumer, and Pelosi on guns right before the critical November elections, mark my words, it'll get MUCH worse.

Please take action on the following three things right away. It will only take about 10 minutes.

1. **Sign and mail** the enclosed postcards to your U.S. Senators. Give the extra cards to your friends so they can get involved too.
2. **Return** the enclosed Action Alert so I can tally how many calls and cards your Senators are receiving.

And, if you can afford to, please enclose your most generous contribution to help your National Association for Gun Rights defeat this gun confiscation scheme.

With your donation, we will be able to reach and activate more Second Amendment supporters, and put more pressure on lawmakers to kill all gun control.

3. **If you can do more, please call 202-224-3121 (the Capitol Switchboard)** and leave the following message for BOTH of your U.S. Senators: "Please oppose all gun control, especially 'Red Flag' Gun Confiscation and Universal Gun Registration."

I have also included extra postcards you can send to Senate Republican Leader Mitch McConnell and House Republican Leader Kevin McCarthy telling them to oppose all gun control too. Please fill out and mail those, along with the postcards to your Senators.

I hope you'll act now, because the political environment for the

Second Amendment on Capitol Hill is worse than it's been in years.

With so many Senate Republicans charging ahead with the media's gun control narrative, they're DANGEROUSLY close to getting the 60 votes they need to pass radical gun control.

But YOUR grassroots lobbying can stop them.

After all, this is an election year, and we know from experience that when gun owners rise up and FLOOD Capitol Hill with phone calls, emails, and postcards, it makes the difference.

With all that's at stake for the Second Amendment now and in the big political year to come...

...It's vital Senate Republicans NOT abandon gun owners when we need them (and they need us) the most.

That's why I'm including postcards you can use to contact your Senators, and I hope you'll act IMMEDIATELY.

Please, sign and mail the enclosed postcards to your Senators, urging them to OPPOSE gun control.

Or better yet, write a personal letter and give the extra postcards to a friend instead.

Then, return your Action Alert, along with your most generous contribution right away.

For Freedom,

Dudley Brown
President

P.S. "Red Flag" Gun Confiscation and Universal Gun Registration are gaining momentum from both Democrats and Republicans in Washington, D.C.

Even an expanded "Assault Weapons" ban could be on the table. Please sign and mail the enclosed postcards to your U.S. Senators urging them to OPPOSE gun control, and return your Action Alert along with your most generous contribution right away.
