1995-2007

JIM LACY
FOUNDER AND PRESIDENT

PO Box 1372
MERRIFIELD VA 22116-1372

Dear _____

Due to extreme urgency, this will be short and to the point.

Widespread election fraud will destroy America if it ever happens again, whether in the mid-terms in 2022 or the next presidential election in 2024.

We must absolutely stop it. NOW.

So United States Justice Foundation (USJF) is launching our **Election Fraud Task Force**, which I'll explain shortly.

USJF, founded by former Reagan administration attorney Jim Lacy, has served as the legal arm of the conservative movement since 1979. Our record of pro-Constitution victories runs from the 2nd Amendment, to religious liberty, the Trump travel ban, voter I.D., and more.

In the presidential election in 2020, in line with that mission, USJF sent our top election law attorney, Alex Tomescu, to North Carolina to ensure honest, legal voting. His actions there are the "model" for our new Task Force **in every scandal-ridden precinct in America.**

On Election Day, Alex personally covered ELEVEN precincts in one of North Carolina's largest counties. From sunup to midnight, he inspected nearly THIRTY polling stations.

One election judge refused to release raw vote totals by the legally required time. Alex immediately called authorities, who then forced her to follow the law... **in under TEN minutes!**

In another precinct, after the polls closed, the election judge refused to let Alex watch ballots being counted. "It's private property; the building is closed and you're not allowed in," he declared. **Then he CLOSED and LOCKED the door.**

Once again, Alex contacted the proper local authorities, and the door was opened

Over, please...

for him... **in under FIVE minutes!**

Most volunteers without this expertise would have been put off and intimidated. But Alex wasn't locked out for hours -- as other poll watchers were -- because he knew what to do.

USJF used that knowledge to launch our new **Election Fraud Task Force** this past January, when Alex and other USJF associates flew to Georgia for more poll watching and to train attorneys there for the crucial U.S. Senate races.

And now we will build a nationwide network of attorneys trained to STOP election fraud for the 2022 and 2024 national elections!

I urge you to support USJF's Election Fraud Task Force to train thousands of poll monitors who, like Alex, can stop the fraud of 2020 from ever happening again.

Please send your best tax-deductible contribution of \$25, \$35, \$50, \$100, or more, today.

Your gift is needed for USJF to bring Alex's expertise to as many conservative attorneys as possible to rapidly build this vital nationwide coalition.

America isn't AMERICA without fair elections. Election fraud will be the death of America.

Just as they did in Georgia, billionaire leftists will try to steal votes in 2022 and 2024.

USJF -- with your generous support for our **Election Fraud Task Force** -- will stop them!

Please do your part to help USJF, and save America.

Sincerely,

J.D. Hayworth
Member of Congress
1995-2007

P.S. as a former U.S. Congressman I can tell you we urgently need a nationwide network of election attorneys like Alex to stop illegal voting. **USJF's Election Fraud Task Force can train an effective army of American patriotic attorneys to spot and stop the next attempt at stealing an election!** Please help USJF save America by rushing your best gift of \$25, \$35, \$50, \$100, or more today.
